For your approval,

A light pole was hit during a TC yesterday (Case # SMPD25-0001203) that had a Flock Camera on it, we now have to pay a reinstallation fee to put It back up.

I spoke with Kevin Prichard, he said that he is going to try to replace the pole by Tuesday or Wednesday next week.

Please let me know if you have any questions.

Thank you,

*** EXTERNAL EMAIL: Please use caution when opening links or attachments.***

Hi there,

Thank you for reaching out. I am sorry to learn of this unfortunate incident. I am happy to help restore functionality to location 075 NB Blosser (south of Fesler). I have a few questions to ensure this process goes smoothly:

- Here is a link to the reinstall fee schedule. Reinstallation will cost $350-$800, depending on the extent of damage. Do we have permission to move forward with replacing the equipment? If yes, the invoice will be emailed to dcohen@cityofsantamaria.org upon reinstallation.
- Do you know if the utility/light pole is still on site? If not, please confirm when the pole will be restored or if we should relocate this device to a new area.

- Could you please provide the following details for the equipment pickup?
    - The address where we should pick up the equipment.
        - 111 W Betteravia Rd
          Santa Maria, California 93455
          United States
    - A contact person our technician can call upon arrival or any specific instructions (e.g., checking in with the front desk).

Thank you in advance for getting back to me.

Stay safe,
Nina

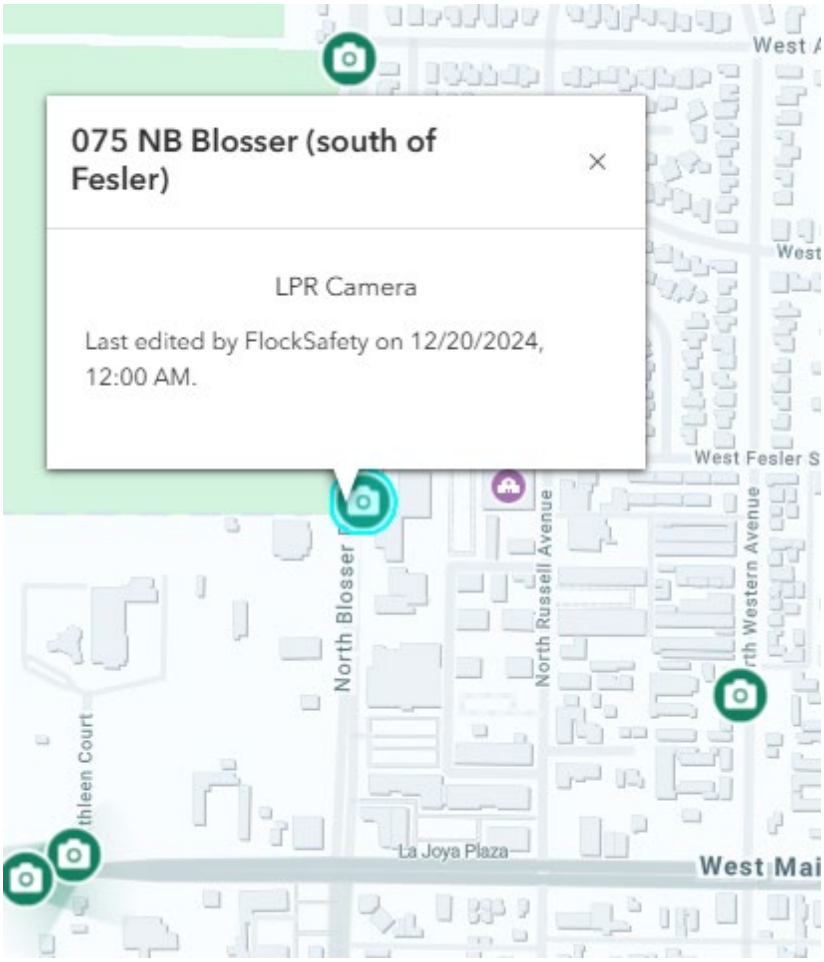
Hello,

One of our poles got hit by a driver and a flock camera was on it. This will need replacement/repair. The camera is **075 NB Blosser (south of Fesler).** We currently

have the hardware at the Police Department.



Thank you,

Michael Balcorta, Police Business Systems Analyst
